

VINOCOLOR – INFORMATION SHEET

How to hide wine spots on your barrels and give your cellars and caves a vibrant cachet?!

Vinocolor is an original 100% natural red paint manufactured by Lyofal, based in Salon de Provence in the French Riviera. By applying it to their barrels, winemakers bring a brighter color to their barrel facility and hide possible splashes of red wine while avoiding fungus development. Extracted from red wines and grapes by lyophilization (dry-freeze), this high-tech paint is food grade, safe, and easy to use!

VINOCOLOR is imported from France and packed in 100 g, 500 g, and 1 kg small containers.

Directions: In a container, add about 100 g of Vinocolor to 1 liter of water. Stir well. 1 liter should cover about 40 barrels. For best results, use a firm sponge or a brush and apply 2 to 3 coats. *Please wear all necessary safety gear.*

M.S.D.S INFORMATION BASED ON MANUFACTURER'S DOCUMENTATION

Section 1: General Information

Trade name: Vinocolor, reference 70 007 and 70 012

Chemical family: Polyphenols

Manufacturer's name & Address: LYOFAL S.A.S

ZA La Gandonne – Rue du Remoulaire – 13300 Salon-de-Provence – France

Tel : 011-33-4-90-53-57-58 & Fax : 011-33-4-90-53-62-08
