

High-Capacity Water Storage

Built On Site - Modular Construction - 5,000 to 100,000 Gallons

Talk to Green Rubber - Kennedy Ag about the **Aquamate advantage:**

- Modular components perfect for sites with limited access
- Sustained fire protection that can take the heat of a wildfire
- Costs as low as 70% to 80% of polyethylene tanks
- Drinking water storage with Geosynthetic liners
- Higher storage volume per sq. ft.
- Highest corrosion and UV resistance
- Optional rainwater catchment
