G3ENTERPRISES.COM

Expanding into New Markets with petainerKeg™

G3 OFFERS SIMPLE TURN-KEY SOLUTIONS TO MAKE STILL AND SPARKLING WINE ON-TAP PROGRAMS EASY AND MORE CONVENIENT

Petainer Kegs

Convenient, one-way use kegs made with materials that are 100% recyclable. Available in various sizes. The new 20L Hybrid provides excellent handling, safety, and stackability benefits with reusable top and bottom chimes.

Fresh kegs are blow-molded on demand at a G3 location in California. Kegs are delivered clean, micro-biologically sterile, and pre-purged with food-grade nitrogen.

On-Tap Equipment

G3 partners with high quality dispensing and draft equipment suppliers to provide wineries convenience and simple solutions to promote their on-tap programs for various event venues, hospitality, tasting rooms, and more.

Technical Services

G3, along with our partners, continues to provide wine on-tap education and technical consultations from start-up to business expansion.

Keg Filling Services

NEW!

1. New American Canyon Filling Location

Full turn-key solutions with a minimum order of 250 kegs.

Quality control and lab services on-site at every step of the wine filling process: Pre-filling checks such as tank DO, tank SO₂, start up checks and wine filling QC every 2 hours such as filler DO, keg seal, ATP swab, package integrity, in-line carbonation, COLA application processing, and excise tax management.

Climate-controlled warehousing with extended monthly storage options available for finished goods in American Canyon.

Tanker and tote transportation for bottle-ready wines to the filling location and for filled kegs to bonded facilities.

2. Central Valley Filling Location

3. Mobile Filling Services
