THE HOSPITALITY STUDIO AT BAR ARCHITECTS & INTERIORS

BAR ARCHITECTS & INTERIORS specializes in designing unique places for people to experience and enjoy. Location and context is celebrated and serves as the basis for creating relevant and memorable environments that reflect the unique lifestyle, aspiration and values of our clients and their guests. Using an inclusive and collaborative process, we strive to bring beauty and delight by blending the power of architecture and interior design with art and function to inspire. Our firm's commissions include hotels, destination resorts, spas, restaurants, wineries and a variety of entertainment venues. Let's be inspired together!

## FLAMINGO RESORT

## OJAI VALLEY INN\*

*This historic resort is nestled in a rare Southern California coastal valley and links the Mountain, Valley and Legacy, while celebrating the connection of the indigenous Chumash Native American people and distinct California-style architecture.*

*\*EDG Interior Architecture and Design project completed by Tim Hepworth as Studio Design Director while with EDG.*
