

Customers love our glass washers...

Because nothing cleans glassware faster or better!

- **Saves time...** Installs in virtually any bar sink in seconds. Instantly scrubs off tough stuff like lipstick and fruit pulp.
- **Saves work...** Clean glasses on demand. No racks to load/unload and move. Less chance for breakage too.
- **Saves money...** Low purchase cost, low operating and no maintenance cost, less water and chemical usage.
- **More versatile...** Large selection of brushes to clean virtually any size and shape of glassware.
- **More profit...** Properly cleaned glassware results in better quality draught beer, often yielding many extra glasses per keg and thousands per year in profit.

"A" Series Upright Glass Washer

Built for busy bars, the "A" Series is economical to buy and built to stay that way. Five spinning brushes clean inside and out simultaneously for crystal clear glassware.

"SS" Series Submersible Glass Washer

Compact design fits under bars even if space is tight. Convenient inline switch. Submersible motor runs smooth and quiet...the ultimate Glass Washing machine.

Helps protect glasses from accidental chipping or breakage.

Fits all current makes and models

Specifications:

Model GWC-200

Shipping Weight: 1lb

Product size: 12"L x 8.5"W

Why are clean glasses so important?

For a bar, clean glasses are more than a luxury...they are a necessity. Improperly cleaned glassware can ruin an establishment's reputation and seriously impact the bottom line.

Clean VS. Not so clean

	UNITS OF BEER PER KEG				PROFIT PER KEG Extra Glasses = Extra Profit
	NO HEAD	½" HEAD	1" HEAD	EXTRA UNITS WITH ½" TO 1" HEAD	
12oz. Pilsner	165	189	220	24 to 55	\$4 each = \$96 to \$220 Profit
12oz. Mug	165	176	203	11 to 38	\$4 each = \$44 to \$152
16oz. Pint	124	140	163	16 to 39	\$5 each = \$80 to \$195 Profit

**THE BEST
DRAFT BEER IN
TOWN IS ALSO
THE MOST
PROFITABLE!**

A properly cleaned glass allows water to sheet off evenly, leaving it to dry spot and streak free. It also promotes an appealing "head" on the beer that leaves a lace with every sip. As the chart above reveals, an Electric Glass Washer and proper chemicals may easily pay for itself. A poorly cleaned glass may leave grease, dirt or soap film that can leave beverages "flat" and a create a negative customer experience.
