

For over 30 years, Nutrient Technologies has been serving agricultural producers with nutrient products to improve the quality and yield of their crops.

Whether you are looking to improve shelf life, increase pack-outs, or are dealing with a nutrient deficiency in some of your blocks, Nutrient Technologies has 3 product lines with unique offerings that can help you achieve your goals... and increase your profits.

ROW WITH US!

Essential plant nutrients for optimal yields.

"I had a block of pinot gris that was really struggling. With help from my Nutrient Technologies Rep, I was able to correct the nutritional imbalances and achieve 'reserve' quality for that block. I look forward to continuing my nutrient program and achieving similar results from the rest of the farm." -Willie, Vineyard Owner, Yakima, WA

TECH-FLO<sup>®</sup> Advanced suspension concentrates Tech-Flo products provide maximum safety, efficiency, and compatibility. The unique combinations of nutrients are micronized for maximum coverage and are designed for controlled nutrient release, improving uptake by plants. pH neutral.

**TECH-SPRAY**<sup>®</sup> In Tech-Spray products, nutrients are fully soluble for quick absorption by the foliage. They are designed to work synergistically with Tech-Flo products to give growers the best set of nutrient tools to meet their crops' specific needs.

## TECH-GRO<sup>™</sup>

High analysis dry formulations

The Tech-Gro products provide high concentrations of nutrients economically without sacrificing performance. They are designed for both foliar and soil applications. These single element products provide the best value for bulk applications.
